Over 1400km of these roads are unsealed and approximately 800km are sealed, stretching across 9000sq km of total area. West Wimmera Shire employs over 40 outdoor workers to maintain and construct roads, footpaths, town maintenance kerbs and Channels. The Council also is a contractor for VicRoads looking after Arterial roads that fall within the Shire. Regular inspections are done on all categories of roads and footpaths as to their hierarchy, but do rely on input from the community for improvements to provide a safe network. The Council places high priority on road maintenance and allocates millions of dollars each year solely to the roads budget.

ANIMALS

We recognise that animals can bring much joy to family life. For the benefit of both pet and owner, West Wimmera Shire Council endorses Responsible Pet Ownership. This includes abiding by Council laws regarding walking your dog and disposing of their waste appropriately.

Read more about Responsible pet ownership, including pet registration and microchipping here:

🌐 <https://www.westwimmera.vic.gov.au/Residents-Property/Pets-Animals-Livestock/Pet-Ownership>.

If you have a dog or cat, you must:

- Microchip and register at three months of age.
- Renew the registration every year by 10 April.
- Advise Council if you change address or the animal is deceased.
- You may be fined if your cat or dog is over three months old and is not registered, and
- You must follow particular restrictions in relation to restricted breeds of dogs.

When you register a dog or cat, Council knows the pet's owner and address, and how many dogs and cats you own. In West Wimmera Shire Council you are permitted to have two dogs and/or two cats in the township on land up to 0.4 hectare and four dogs and/or four cats in the township on land greater than 0.4 hectare. A Community Local Law Application for Permit form will need to be completed if you exceed these limits.

The cost of animal registration varies depending on circumstances, please contact Council for an up to date fee schedule.

PLANNING & BUILDING

Always check before you build!

If you are planning to build something on your property, a phone call to Council's planning unit is the best way to start. By phoning us first, you will know exactly what you need to do to meet regulations and ensure you have all the relevant building, planning and septic tank permits before starting work. A phone call will avoid problems in the future if you build and then find out you were not allowed to under legislation.

The West Wimmera Shire Council provides planning, building and septic tank services and can advise you on the permits you will need before you start building. Almost all building works will need a building permit, and planning permits are also needed for many works depending on how your property is zoned and the particulars of your proposal. Septic tank permits are required for domestic development (new or alterations) in un-sewered areas.

Examples of the projects that need a permit include:

- Alterations to an existing house
- Alterations to an existing building
- Re-cladding of a building
- Sheds and garages
- Some farm sheds
- New houses
- Pergolas and decking attached to a building
- Swimming pools
- Some fences
- Internal alterations

Please note – this list is not exhaustive so please speak to Council officers before you start building.

West Wimmera Shire Council's Building and Planning Department can be contacted on ☎ 13 99 72 or you can drop in to our Edenhope office to speak to an officer in person. You can also obtain more information on our website at 🌐 <https://www.westwimmera.vic.gov.au/Residents-and-property/Planning>

Planning permit application checklists, which help guide you through the application process, are available on the Building & Planning page of the website or from the West Wimmera Shire Council offices.

There is no emergency rescue helicopter based in the south-west of Victoria, but one can be called to transport patients in emergency situations. A fixed-wing aircraft is also used to transport patients to city hospitals.

FIRE

Like many areas of Victoria that are affected by long-standing drought conditions, West Wimmera is prone to outbreaks of bushfire. The Council has a Fire Prevention Officer who, in conjunction with the CFA, is responsible for community fire education and awareness, and for ensuring landowners comply with regulations that require them to keep their blocks neat and tidy and free from flammable materials such as piles of flammable material or long, dry grass.

Every year around October, Council's municipal fire prevention officer inspects township allotments and property and from these inspections "compliance notices" are issued to land owners who are asked to slash long grass, remove piles of flammable material and ensure their property is free from fire hazards. For more information about fire prevention, call the Council's Municipal Fire Prevention Officer on 📞 13 99 72

Detailed information about fire prevention is available on the CFA website at 🌐 www.cfa.vic.gov.au.

YOUTH AND EDUCATION

PLAYGROUPS

Playgroups provide parents and carers with the opportunity to meet new people, gain support and exchange parenting ideas. They allow babies, toddlers, and pre-schoolers to socialise as they play and learn together. All playgroups are different, but the emphasis is on fun and friendship.

Several playgroups are operated by community groups within the Shire at Kaniva, Edenhope and Apsley. We also run Supported Playgroup facilitated by West Wimmera Shire Council.

KINDERGARTENS

We offer 2 years of Kindergarten for 3 and 4 year olds in three locations: Kaniva, Edenhope and Goroke. Our sessions at all locations are 2 days x 7.5 hour sessions to assist with family care needs.

In all of our kindergartens we offer a play-based, emergent curriculum, where children initiate and lead their own learning. Our focus is on exploration rather than on teaching specific skills. Kindergarten is not "practice for Prep" where your child will be taught to read and write before they attend school. Our focus is on social skills, self-help skills, encouraging exploration and wonder, and setting children up to have a love of learning.

BURNING OFF

West Wimmera Shire Council discourages residents from burning rubbish if there is opportunity for residents to responsibly dispose of the material by other means, such as through the Council's kerbside waste collection or by taking the waste to a transfer station. Green waste is accepted free of charge at the transfer station.

During the declared fire danger period – generally between November and the end of April – anyone wanting to light a fire in the open air must first obtain a written permit from Council's Fire Prevention Officer. However, land owners wishing to burn stock piles of material (such as trees or the like) will not receive a permit from Council during this period. The only permits that are issued during the fire danger period are for agricultural reasons – such as stubble crop burning – under stringent permit conditions, and to local CFA brigades to conduct fuel reduction burning of strategic roadside fire breaks in accordance with the Municipal Fire Prevention Plan.
