MATERNAL & CHILD HEALTH

Key Ages and Stages Appointments (KAS)

**Maternal and child health
nurses work in partnership
with families to care for
babies and young children
until they start school. This
service is free for all ages.**

You will visit or be visited by a maternal and child health nurse
at **10 key ages and stages** of your child's growth and
development along with any additional visits that are requested
or required.

Additional appointments are made to ensure immunisation's are given
in accordance with the funded (free) National Immunisation Schedule.

The **QR codes** in this booklet correlate with a particular age and
stage of your child's growth and development. Each code links you to
useful information to prepare you for your visit with the maternal and
child health nurse along with helpful resources to support and
broaden your knowledge.
