

COUNCIL POLICY			
PRICING POLICY		Policy No:	
		Adopted by Council:	16 March 2022
		Next review date:	March 2026
Senior Manager:	Chief Financial Officer		
Responsible Officer:	Revenue Manager		
Functional Area:	Finance		
Introduction	West Wimmera Shire Council (Council) provides a vast range of services to the community. In undertaking this role, Council assesses community needs and is guided by social policy objectives to determine which services it will support. Some services are required due to statutory obligations, whilst other services Council chooses to provide and at what level and quality.		
	In planning for a service, Council decides on the level of rate contribution it will allocate to support the service proportionate to its community benefit. Council places a high priority on ensuring accessibility to particular services and orientating them to its community. If the rate base does not cover the full cost of delivering the service, the balance of the cost needs to be recovered from fees and charges or other revenue sources.		
	the public value component policy objectives; and that	iple is that the role of the rate base is to finance ponent of services and fulfil attendant social d that conversely, users are responsible for services from which they derive benefit, referred	
	Fees and charges are significant from the perspective of the the rate payer. For the user, fees and charges represent the value of resources used to produce the service, as well as se expectation about the level and quality. For the rate payers, f charges supplement Council's cost of delivering of a service a should lessen reliance on the rate base.		resent the cost and s well as setting an te payers, fees and
Fees and charges exist for different reasons. These include behaviour to protect community health, safety and amenit incentivising compliant behaviour; and enabling customer are sought by the user (i.e. they actively choose to partake service).		amenity; ustomer benefits that	

.	The level of some face and channed are statistically act however more that
	The level of some fees and charges are statutorily set, however many are at the discretion of Council. The provision of infrastructure and services form a key part of council's role in supporting the local community. In providing these, council must consider a range of 'Best Value' principles including service cost and quality standards, value- for-money, and community expectations and values. Council must also balance the affordability and accessibility of infrastructure and services with its financial capacity and in the interests of long-term financial sustainability.
	Council must comply with the government's Competitive Neutrality Policy for significant business activities they provide and adjust their service prices to neutralise any competitive advantages when competing with the private sector.
	In providing services to the community, Council must determine the extent of cost recovery for services, consistent with the level of both individual and collective benefit that the services provide and in line with the community's expectations.
	Services are provided based on one of the following pricing methods:
	- Market Pricing
	- Full Cost Recovery Pricing
	- Subsidised Pricing
	- Regulatory Pricing
	The Pricing Policy is a requirement under Councils' Revenue and Rating Plan and outlines the process for setting fee prices taking into consideration pricing principles, including;
	<ul> <li>Both direct and indirect costs to be considered when setting prices;</li> </ul>
	<ul> <li>Accessibility, affordability and efficient delivery of services must be considered; and</li> </ul>
	- Competitive neutrality with commercial providers.
	The policy has been developed with consideration of the Victorian Auditor General's Office report "Fees and charges – cost recovery by local government" recommendations.
	The Pricing Policy (Policy) establishes a consistent and transparent approach to the setting of fees and charges for transactional services delivered by West Wimmera Shire Council (Council). It takes into account community benefit, the needs and capacity to pay of particular user groups, the cost of running services and reflects corporate and strategic objectives.
	The Policy provides the basis for which the Fees and Charges Schedule, adopted with the annual Budget, is developed and reviewed. It does this by providing:

	<ul> <li>Principles that guide how Council sets appropriate fees for services.</li> </ul>		
	Pricing methods that indicate the extent to which:		
	<ul> <li>the general community benefits from a service, and therefore the extent to which the service will be subsidised from the rate base</li> </ul>		
	<ul> <li>the user or person benefiting from the product or service, will be asked to contribute to the cost of service provision.</li> </ul>		
	<ul> <li>Direction for Managers on how to set fees using pricing methods.</li> </ul>		
	<ul> <li>Roles and responsibilities of administering this Policy, including review times.</li> </ul>		
Objectives	This Policy seeks to ensure that the following objectives are met:		
	<ul> <li>Council, officers and the community clearly understand the basis by which fees and charges are determined and applied to services.</li> </ul>		
	<ul> <li>Council and officers are held accountable for fee setting decisions to ensure that strategic objectives are met and that services respond to community needs.</li> </ul>		
	<ul> <li>Fees and charges are simple to administer so that resources are maximised.</li> </ul>		
	Council complies with all statutory and legislative requirements in setting fees.		
Response to the Overarching Governance Principles of the <i>Local</i>	Section 9 of the <i>Local Government Act 2020</i> states that a Council must in the performance of its role give effect to the overarching governance principles.		
Government Act 2020	This policy is in response to the following overarching governance principle/s of the Local Government Act 2020:		
	1. Financial management principles (section 101)		
Definitions	<b>Community benefit</b> The degree to which benefits are accrued to just the individual, household or business receiving the service (private value), or whether benefits may be simultaneously generated for the broader community (public or social value).		
	<b>Competitive Neutrality</b> Market pricing to ensure competitive neutrality when services are offered in competition with local business.		

	<b>Cost recovery</b> The recovery of some or all costs of service provision recouped through user fees and charges.		
	<b>Direct costs</b> Costs that are directly related to the delivery of a specific service.		
	<b>Indirect costs</b> Costs that cannot be directly related to the delivery of a specific service. Also called a corporate overhead.		
	<b>Fees and Charges Schedule</b> The list of fees and charges, submitted for approval to Council as part of the annual Budget process.		
	<b>Full cost</b> Total costs, both direct and indirect costs, incurred in delivering a service.		
	<b>Government Ownership</b> A term used to describe any stand-alone business owned by Government at Commonwealth, State, Territory or Local level.		
	<b>Public value</b> The value from services that are consumed collectively by the community rather than individually by the user. Examples include parks, clean air and street lighting. One person can consume these without reducing their availability to another person and nobody is excluded from consuming them.		
	<b>Pricing method</b> The method for setting fees and charges which takes into account the costs of delivering the service, social policy objectives and community benefit. Pricing methods can be statutory or non-statutory.		
	<b>Private value</b> The value derived by the user (i.e. an individual, household or business/organisation) who is receiving a service in a direct and typically voluntary, as well as generally economic, exchange.		
	<b>Services</b> The wide variety of services, activities and facilities that Council provides to assist individual people, families and groups in the West Wimmera Shire. Some services enforce various federal, state and local laws and Council has autonomy to provide services that meet the needs of the local community.		
	<b>Social policy objective</b> The responsibilities, or obligations of Council, that are informed by the local community's needs, values, aspirations and priorities, and which are conveyed in strategic documents, for example the Council Plan.		
Scope	The policy applies to all fees and charges that are listed in the Fees and Charges Schedule which is published annually as part of the Budget.		
	The policy also applies to any new fee or charge that has not previously been included in the Fees and Charges Schedule.		
	This policy does not cover the following fees and charges:		

	<ul> <li>User Agreements for Council Facilities – seasonal, licences and leases</li> <li>Private Works</li> </ul>		
Policy Det	ails		
1.	Pricing Principles		
	The following principles guide how Council sets fees and charges for its services:		
	1. Socially equitable		
	Council seeks to promote fair, just and equitable access to services.		
	2. Efficient to administer and regularly reviewed		
	Our fees and charges are simple to administer and review and in line with changes to service operating environments.		
	3. Clear and Consistent		
	Fees and charges are documented and presented in a way the community can understand. We set our fees and charges in a consistent way across Council services and facilities.		
	4. Recognises competitive neutrality obligations		
	We have regard to fees and charges of private competitors, except for services where there are no private competitors.		
2.	Cost Recovery		
	Cost recovery involves Council charging a service user some or all of the costs to deliver a service. Cost recovery can promote equity, whereby the recipients of a service, rather than the general public, bear the costs.		
	Council incurs direct and indirect costs in delivering services to the community. Direct costs (e.g. wages for leisure staff) are directly traceable to the service. Indirect costs or overheads (e.g. information services) are not directly traceable and common to many services, requiring allocation in proportion to how the service uses the overhead.		
	Costs need to be recovered in some way: either from the users who benefit from the service; grants or government subsidies; or from the rate base where Council recognises a social policy objective. Many services are funded from more than one revenue source.		
	The desired degree of cost recovery influences pricing. As shown graphically below, full cost recovery is achieved when the price is set with the intention to cover full cost (direct + indirect). When prices are set below full cost recovery, Council makes this decision based on identified social policy objectives. This process ensures that the rate base is being used to subsidise a service that have value to the broader community.		

## Council Policy Manual WEST WIMMERA SHIRE COUNCIL

	A subsidy occurs when the price does not cover full costs and there is recognised community benefit in covering a portion of the costs from the rate base. The degree of subsidy is proportionate to the level of community benefit.		
	Full Cost recovery		
	Direct Costs	No Council subsidy – full charge to user	
		Partial Cost Recovery	
		Patrial Council Subsidy – reduced	
		charge to user	
	Indirect Costs	Zero Cost Recovery Full Council subsidy – no charge to user	
		volumes. These are used to determine the	
	appropriate price per unit of a particular service (i.e. unit cost). When volumes ar unknown, estimates are used and these are based on historical usage and other information that may shift user demand, for example:		
	Step 1: Establish the number of actual,	estimated or intended users of the service	
	Step 2: Calculate the unit cost of the ser service by the number of actual, estimated		
3.	Value to the community		
	Where Council sets prices for services Council determines the pricing method that is consistent with the level of individual and community benefit of the service. Council considers services at varying degrees along the public vs private value spectrum rather than one or the other. Council categorises its transactional services as being one of the following:		
	Public Value		
	Services that are consumed collectively and contribute to the community as a whole (rather than having an exclusive benefit to individual users). Council recognises a social policy objective and will fund the service entirely from rate revenue (with the possibility grant contributions).		
	Likely pricing method: Full Council Subsidy		
	Note: Regulatory pricing also seeks to contribute to the community as a whole, however this does not usually attract a Council subsidy.		
	Private Value		
	Services that benefit the individual user, who principally derive benefit from the service. Price for services with high private value aim to recover the full cost (both direct and indirect costs) from fees and charges and in some instances also generate a surplus.		

## Council Policy Manual WEST WIMMERA SHIRE COUNCIL

	Public value Consumed collectively and contributes to the community as a wholeMixed value Benefits are derived for both the user and the communityPrivate value Meets the user's needs and preferences who principally derive benefit		
4.	Pricing Methods		
	There are a variety of pricing methods that Council uses when setting prices for services. In the first instance, fees and charges fall into two key categories: statutory and non-statutory.		
	Statutory Pricing (S)		
	The prices for some services are set or controlled under statute or funding agreement. Council's role is to administer or deliver the service and apply the fees that are prescribed by state or federal government. These prices are set by legislation and may be below the full cost to deliver the service (i.e. the fee may only provide partial cost recovery). Council sets the maximum available.		
	Non statutory pricing		
	The prices for some services are not regulated by statute. For services that are subject to non-statutory pricing, there are a range of considerations that Council will take into account to determine the appropriate pricing method. These include:		
	The degree of private or public value of the service		
	Competitive Neutrality requirements		
	Benchmarking with other providers		
	Service delivery objectives		
	Financial implications		
	Non statutory pricing methods		
	Full Council Subsidy (Z) - All cost is at Council's expense. There is no charge to the customer		
	A full Council subsidy occurs when all costs (direct and indirect) are funded entirely from the rate base and there is zero cost to the customer.		
	Application: where no charge to a customer will deliver community benefit and/or makes a service accessible to low-income or disadvantages users (public value).		
	Partial Council Subsidy (P) - Price between full subsidy and full cost pricing		
	Page 7		

	A partial Council subsidy occurs when some costs are recovered. A portion of the cost is funded from the rate base or other revenue sources and a portion of the cost is funded by the customer.
	Application: where Council recognises community benefit as well as individual benefit (i.e. there is shared benefit).
	• Full Cost Recovery (F) - Price intends to cover direct and indirect costs, and in some cases there may be an allowance for profit
	Full cost recovery occurs when all costs (direct and indirect) are intended to be recovered from the customer. There is no intent to subsidise the service.
	Application: the service primarily benefits the individual user rather than the community as a whole.
	<ul> <li>Market Pricing (M) - Price is reflective of competitive market considerations. Competitive neutrality is given due consideration.</li> </ul>
	Market price occurs when the service competes with others and there is pressure to set a price that will attract adequate usage of the service. Competitive Neutrality applies and the price must be consistent with the Competitive Neutrality Policy guidelines.
	Application: the service primarily benefits the individual user, competes in a competitive market environment and the price must create a level playing field.
	• <b>Regulatory Pricing (R)</b> - Price to cover full cost at a minimum and to encourage certain behaviour.
	Regulatory pricing occurs when full cost is recovered and in some cases the fee can generate a surplus (profit).
	Application: The fee is issued to encourage compliant behaviour for the greater good and can act as a penalty for breaking rules and local laws. Council performs the role to regulate and restrict certain behaviour/activities
5.	Competitive Neutrality
	Council is subject to the provisions of the National Competition Policy and Victoria's Competitive Neutrality Policy (CN Policy).
	CN Policy measures are designed to achieve a fair market environment i.e. government business activities, for example child care or leisure services, should not enjoy net competitive advantages over private sector competitors simply by virtue of public ownership.
	The CN Policy states that it is appropriate to apply competitive neutrality principles when the business activity is significant; the benefits outweigh the costs; and it does not compromise other government objectives. Decisions on competitive neutrality must be documented in a manner sufficient to satisfy the accountability and transparency expected under the CN Policy.

## Council Policy Manual WEST WIMMERA SHIRE COUNCIL

	Guidelines:		
	Any person who holds an eligible concession card is eligible for a concession discount. For most individual concessions, the required cards are shown in the tab below.		
	For group or organisation concessions, proof of eligibility needs to be demonstrat		
	Rounding will occur on the deducted %.		
	Generally, only one concession can be applied per fee or charge. Eligible Concessions*		
		Centrelink Health Care Card Centrelink Pensioner's Card Veterans Affairs Pensioner or Gold Card Child or Youth Victorian Seniors Card Full Time Student	
		Charity Organisation Not-for-profit organisation Community Groups Schools Organisations/Groups Located in the West Wimmera Shire.	
	* Not all services will receive a concessional rate, and differing eligibility may apply.		
8.	8. Goods and Services Tax		
	Goods and Services Tax (GST) of 10% is payable on some services provided by Council. Some services provided by Council have been declared 'GST free' or excluded under section 81-5 of the <i>A New Tax System (Goods and Services Tax) Act 1999.</i> The Fee and Charge Schedule identifies where GST is applicable or not applicable.		
9.	<ul> <li>9. Review Process</li> <li>All fees and charges will be reviewed annually during budget planning.</li> <li>Full cost analysis must be completed at least once every 4 years. Alternate annual indexation methods, such as CPI may be used between full cost analysis years.</li> <li>The review process is the responsibility of Directors and Managers and it will:</li> </ul>		
	Be guided by the Pricing Policy princ	iples.	
	<ul> <li>Reflect current social policy objective set out in strategic Council document strategies).</li> </ul>	es and strategic priorities of Council as ts (i.e. Council Plan and other	
	Consider service costs and any changes that may impact on these.		

	Give regard to the prices charged for similar services delivered by other providers (applicable for services that compete with alternatives.		
10.	Transition period		
	The application of this Policy will be incremental. Where there is significant difference between current and new prices as a result of the implementation of this Policy, Council will consider phasing increases over a period of time. Where CPI has been used historically a full cost analysis must be undertaken within 4 financial years.		
11.	Implementation and responsibilities		
	The implementation of this Policy is dependent on the following responsibilities being fulfilled:		
	• Council is responsible for endorsing the pricing for fees and charges as set out in the annual Budget in accordance with this Policy.		
	• Directors are responsible for ensuring Managers undertake an annual review of all fees and charges in accordance with this Policy, and that the Policy is used as a part of the Budget development process.		
	• Managers are responsible for annually reviewing fees and charges, with respect to the review process; identifying any new fees and charges that should be applied; and updating the fees and charges schedule for inclusion in the proposed Budget.		
	• Officers are responsible administering the fees and charges as set out in the schedule in the annual Budget.		
	• Providing accurate current information to Managers as it relates to matters that influence the setting of fees for services, for example costing information, benchmarking of other providers and community needs.
