Please document your written submission within the space provided (if you require more space please attach additional pages to this form).

Summary of Submission	
In The WWSC plan there is reference to a Wetland Centre of Excellence. It has bee previous budgets for an amount of \$20,000. I cannot find it in this year's budget be assume it has never been taken out. I want to reinstate it as a line item. It has been envisaged that the money will be spent in the front area of the new Edenhope & District Community Centre to advertise and direct tourists and locals to the fantastic array of wetlands throughout pur shire. We are often referred to as the Kakadu of the South, the home of lakes and leisure. In much of our remote shire our Wetlands and Parks are in areas with no mobile service. It is envisaged that new technology in the form of Apps and Augmented Reality will need to be downloaded onto phones, ipad's and whatever comes along next. That only be done where there is good service. There are some stunning photos and videout there that could be part of the concept and on display. It would direct people to all our attractions locally and throughout the shire. We need to become a destination, not just a way stop and along with our many oth attractions can become a place to stay for a week or two or a lifetime.	ut I o e
