9.0 NOTICES OF MOTION

9.1 CR TREVOR DOMASCHENZ – DROUGHT COMMUNITIES FUND – NOM 2019/03

Preamble

There have been ongoing delays to the "Making a Difference @ Harrow and District Recreation Reserve" project at the request of the Harrow & District Recreation Reserve Committee. Every other community and relevant body wants to commence the project that was put out to tender.

These ongoing delays have in my opinion severely jeopardised the ability of the project to acquit the grant of \$150,000 by the end May 2019 provided via the Drought Communities Funding stream.

The Drought Community Funding body have advised that if a project is unable to acquit the funds by the due date, these funds will be lost from the project and from providing support to other projects within the West Wimmera Shire.

Motion

That West Wimmera Shire immediately request permission from the Drought Communities Fund to reallocate the \$150,000 currently allocated to the "Making a Difference @ Harrow and District Recreation Reserve" project to the Kaniva Shire Hall project to enable further restoration works to be carried out.

9.2 CR RICHARD HICKS – MAKING A DIFFERENCE @ HARROW & DISTRICT RECREATION RESERVE – NOM 2019/04

Preamble

WWSC has very actively supported the "Making a difference @ Harrow & District Recreation Reserve" from its inception in mid-2018. WWSC has provided \$50,000 upfront to facilitate the rapid development of the project, from concept to detailed designs, and WWSC staff have provided on-going and very pro-active project management support by attending all Project Control Group and Steering Committee meetings, working closely with the community to facilitate the Project to the Tender stages. Additionally, WWSC has supported and/or been instrumental in the Project obtaining funds and grants from several external sources.

However, it appears that the probity of WWSC and its officers may have challenged and efforts to advance the approved project designs may have been undermined by some community members. Consequently, WWSC has been forced into re-evaluating its role in the overall Project, cognisant of its statutory obligations and responsibilities and its need to support all communities within the Shire.

Whilst WWSC has provided project management support to date, WWSC believes that this role should henceforth be undertaken by an independent and external professional project manager, and his expenses to be directly sourced from Project funds. WWSC would facilitate the handover of all Project documents, plans, minutes of meetings, correspondence, etc to the independent project manager, and once completed would have no further role in any project management activities. Discussions have already been held between WWSC and appropriate government bodies and sporting organisations and agreement in principal has been sought.

WWSC would retain its current position on the Project Control Group. Statutory requirements may compel WWSC to provide the financial services and financial oversight to the Project. Furthermore, WWSC would no longer be responsible for any project funds shortfalls or cost overruns; this responsibility would consequently rest solely with the Harrow Recreation Reserve and its affiliated sporting bodies.

Motion

That WWSC resolves that Sports and Recreation Victoria and the Project Control Group of the "Making a difference @ Harrow & District Recreation Reserve" project be advised that WWSC removes itself from the role of project management effective 10 April 2019. WWSC recommends that henceforth an independent and external professional project manager be recruited and subsequently ratified by the various funding bodies, and that all project management expenses to be directly extracted from Project funds.

FOR DECISION

Introduction

The following report and revised spreadsheet provides an update to Councillors on the various actions taken with respect to the implementation of key objectives contained in the West Wimmera Shire Council Plan 2017-2021.

This report is provided following the presentation to the Council Assembly of 6 March 2019, where it was listed for discussion.

Declaration of Interests

No officer declared an interest under the *Local Government Act 1989* in the preparation of this report.

Background

Following the completion of the Council Plan in 2017, the senior staff of the day developed a resourcing document to enable the various actions to be tracked for progress and also to highlight issues that could possibly prevent certain objectives from being achieved.

In addition to the resource document, a separate document covering all of the advocacy actions was also developed and this has been used to develop priorities around topics to advocate for at a state level on behalf of the West Wimmera Community.

The discussion at the Council Assembly of 6 March has also prompted the development of further documents to assist with key advocacy topics. These documents are currently being formulated and will be circulated to Councillors to prepare for the various presentations.

The attached document has once again been colour coded to enable the items that have changed since the last report was provided to be highlighted.

An example of items that have changed their status since the last report include;

• The commencement and expansion of the Rural Outreach Program

- The joint advocacy approach with Southern Grampians Shire for investment in the Rural Pipeline
- The appointment of shared HR Manager with Yarriambiack Shire
- The preparation of a Rural Councils Transformation Program business case
- The updated status of the Edenhope Hall development
- The preparation of the 2019 advocacy documents
- Installation of new mobile phone towers.

In addition to the above there has been further works completed in a number of recurrent programs, such as, Computer Savvy Seniors, Youth Programs and Wimmera Mallee Tourism.

It should also be noted that Council has received funds through the Fixing Country Roads program, which is a key item in the Council Plan with respect to improvements to C Class Roads. It is also consistent with the advocacy that Council has undertaken regarding the way funds are invested by government into rural roads.

Draft applications for round two of this program, all fit within the same approach to ensuring the best possible investment can be made into the road network. The new applications, if successful, will provide further safety and renewal improvements to the narrow sealed network within West Wimmera.

Risk Management Implications

Not reporting on the actions of the Council Plan can lead to Council straying from its agreed strategic direction.

Legislative Implications

Council is required under the Local government Act to develop a Council Plan and report on its implementation.

Communication Implications

If Council choose to have the report provided to the March meeting of Council, further comments can be provided to the media at that stage.

Conclusion

The Council Plan is the key strategic document developed by Council that provides direction for the organisation. The reporting on the progress of the actions contained within it is critical to ensure that the direction remains focussed.

Along with the advocacy efforts that have been undertaken, Council has made good progress towards achieving a high number of the targets set via the planning process.

OFFICER RECOMMENDATION:

14.1 INFORMATION PRIVACY POLICY

FILE NUMBER: AD0041

REPORT AUTHOR: ASHLEY ROBERTS, DIRECTOR CORPORATE AND COMMUNITY SERVICES

FOR DECISION

Introduction

West Wimmera Shire Council (Council) receives and holds a significant amount of personal and sensitive information which is used in the provision of services to the community. This information may consist of personal contact information (used in areas such as rates or debtors, etc), personal identification information (i.e pension card reference numbers, drivers licence numbers, etc), and also some medical information (i.e HACC services, early years services, etc). It is important to note that this information can be held relating to members of the public, employees of Council and Councillors.

As such Council is required to comply with the *Privacy and Data Protection Act 2014* and the *Health Records Act 2001*. The Information Privacy Policy assists Council to maintain this data in a safe and secure way and to ensure that any information collected is used only for the appropriate purpose for which it was collected, whilst maintaining compliance with both of the above named Acts. A draft version of the Information Privacy Policy, was presented to Councillors at the February 6 2019 Councillor Forum for information and is now presented to this Ordinary Meeting for formal adoption by Council.

Declaration of Interests

No officer declared an interest under the *Local Government Act 1989* in the preparation of this report.

Background

It is a fundamental principle of good governance that any personal, sensitive or health related data collected by Council be stored securely with access only granted to people who have a demonstrated need to use that information.

Any data held must be stored in a secure location and manner that prevents unauthorised access and minimises the risk of data corruption and/or misuse. As a public sector authority

is expected that all data stores comply with the requirements of the Public Records Office Victoria also.

The Information Privacy Policy informs Council's Protected Data Security Plan, which is lodged with the Office of the Victorian Information Commissioner (OVIC), and outlines Council's data security systems.

Both the *Privacy and Data Protection Act 2014* and the *Health Records Act 2001* contain a number of privacy principals with which Council is required to comply. These are outlined within the appendices to the Information Privacy Policy.

The draft Information Policy was produced by referencing a number of other Victorian Councils policies and information from the Office of the Victorian Information Commissioner.

Risk Management Implications

Council is at risk in multiple areas if personal, sensitive or health information is not received, stored or accessed effectively according to Council's legislative requirements:

- Reputational Risk Council may face severe reputational risk if private, sensitive or health data is accessed or shared inappropriately
- Operational Risk without safe and secure systems for receiving, storing and accessing data required for ongoing service delivery, Council may be at risk of providing those services efficiently
- Financial Risk Council may face financial loss from legal action taken against it or Councillors or Officers as a result of inappropriate access and use of personal, sensitive or health data.

The provision of the Information Privacy Policy assists in the mitigation of these risks.

Legislative Implications

Council is required to comply with the provisions of the *Privacy and Data Security Act* (2014) and the *Health Records Act* (2001).

Added to this, Councillors and Officers have fiduciary duties, both by statute (i.e under multiple sections of the *Local Government Act 1989*) and common law to act in 'good faith' and in the best interest of Council in alignment with the goals of the organisation (i.e Council Plan).

Effective handling, accessing and storage of personal, sensitive and health data is essential for Council to actually comply with all of these legislative and common law duties and, just as importantly, to be transparent in doing so and to 'be seen' to be acting in good faith.

Environmental Implications

Not commented on

Financial and Budgetary Implications

Council provides an annual operating budget of \$163,000 to undertaking the Records Management function within Council. This amount covers staff and resourcing in the retention and accessing of Council's document record service.

In addition to this there are other system and operating costs of approximately \$300,000 involved in providing Information Technology services, much of which involves data management functions.

Policy Implications

This report is supported by the following West Wimmera Shire Council Policy: Advocacy Policy Communications Policy Councillor Code of Conduct Policy Customer Service Policy Fraud Control Policy Human Rights Policy Protected Disclosures Policy

Council Plan Implications

This report supports the following section/s of the West Wimmera Shire Council Plan 2017-2021:

- Strategic Objective 1: A proactive, well governed, professional and financially sustainable organisation that encourages community participation.
- Strategic Objective 3: Quality sustainable community services and infrastructure.
- Strategic Objective 6: Participating in activities that address health and wellbeing issues.

Communication Implications

The Information Privacy Policy, once adopted, is freely available to anyone who wishes to peruse it.

It will be placed on Council's website and copies will be on display at Council's Customer Service Centres.

All staff shall be provided with a copy. Training will be provided to staff in the application of this policy. It is critical that all staff have an understanding of the privacy principles and how they apply.

Conclusion

The Information Privacy Policy is a critical piece of guidance for Council in managing an extremely important element of its business. It enables Council to effectively and appropriately receive, maintain and access personal, sensitive and health data as may be required within Council's operations, whilst maintaining legislative compliance with the *Privacy and Data Security Act (2014)* and the *Health Records Act (2001)*.

OFFICER RECOMMENDATION:

That Council adopt the draft Information Privacy Policy.

FOR DECISION

Introduction

West Wimmera Shire Council (Council) has received support from Office of Geographic Names and Serviceton community to change the name of Serviceton Tip Road to Tip Road.

This report seeks approval from Council to go forward with naming of the road.

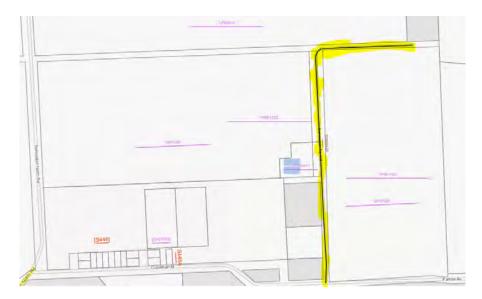

Declaration of Interests

To improve the governance of the West Wimmera Shire Council Community Strengthening a Grant Review Committee has been implemented to review and provide recommendations to Council on the grant applications. The Committee of five included a Councillor representative as well as staff from a range of departments.

Risk Management Implications
